Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Prosecution on the merits of this application is reopened on claims 1, 2, 4-8 considered unpatentable for the reasons indicated below: Applicant's eIDS filed 9-15-2004 became available and it includes a reference (Franco et al.) which discloses all the features of the claims previously allowed, as discussed below, and has an effective filing date prior to the instant application.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1, 2 and 4-8 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Franco (US 6,814,530). Initially it should be recognized that Franco's filing date goes back to the provisional application No. 60/284,902 filed Apr. 20, 2001 which is prior to the instant application's Dec. 2001 filing date. Franco discloses a printed circuit board (5) with a mounting hole (2) and a solder ring on a first side of the circuit board surrounding the mounting hole and, a ferrule (4) with a channel therethrough (not labeled) from a first end with a capture extension (13) to a second end having a soldering extension (15) in the form of a flange which includes a surface for soldering the ferrule to the soldering ring so that the channel in the ferrule is aligned

with the hole in the circuit board. The ferrule is substantially cylindrical. The carpure extension is used for holding a screw (see Fig. 3) having an overmold (6) with an extension (7) such that the screw selectively protrudes to mount the circuit board.

Conclusion

Applicant's submission of an information disclosure statement under 37 CFR 1.97(c) with the fee set forth in 37 CFR 1.17(p) on 9-15-2004 prompted the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 609(B)(2)(i). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
